Not illustrated. 1921 Excerpt: .that of neighbor ing vineyards last year, when tests were made. The main object of growing raisins is to grow fruit that will contain the proper degree of sugar and other nutriments--to produce a first class edible, tasty and marketable food. Excessive yields, low in sugar, defeat the very object of raisin growing. The future of the industry depends upon keeping up the quality. The Kearney Association paid on a basis of grades, and this method is embodied in the new contracts of the California Associated Raisin Company. Certainly no grower can afford to sacrifice quality to a temporary advantage of quantity. Loss of Lower Growth Where Thompsons are permitted to form high crowns, the lower growths will certainly die out. In a few years the bearing wood will get weaker and the vine will become unprofitable. Then the only way to force out lower growth...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
