GRIN Verlag Nov 2015, 2015. Taschenbuch. Book Condition: Neu. 210x148x10 mm. Neuware - Master's Thesis from the year 2014 in the subject Tourism, grade: 1,3, Munich University of Applied Sciences, course: Hospitality Management, language: English, abstract: The prominence of the web as a distribution channel for hotel rooms as well as its transparency and ease for price comparison create a need for the hoteliers to think strategically in terms of rate setting and pricing practices on numerous web-based distribution channels. The overarching purpose of this exploratory study is to investigate the current online pricing practices of luxury hotels in Germany and to explore potential challenges that they face in distributing their rooms on the web. The data covering 29 hotels in the top 4 primary cities in Germany was collected from 11 B2C, web-based distribution channels over a 26-day period at 6 separate points in time leading up to predetermined arrival date. These channels, including the hotels' own websites along with 10 indirect channels, represent various types of operation. The data were analyzed by means of descriptive statistics. Personal interviews with the regional director of revenue management and the regional web & e-commerce executive of an international hotel company were...
