THE CASE AGAINST DARWIN WHY THE EVIDENCE SHOULD BE EXAMINED

[DOWNLOAD](#)

Refuge Books. Paperback. Book Condition: New. Paperback. 83 pages. Dimensions: 8.3in. x 5.5in. x 0.3in. The Case Against Darwin is James Perloffs newest title on the creation-evolution debate. Written from a creationist perspective, this 83-page book is a primer for those unfamiliar with the subject, and too busy for a full-length book such as the authors earlier Tornado in a Junkyard. Perloff first explores the social impact of Darwinism to establish the relevance of the topic. Then, in laymans language, he discusses the growing body of evidence that is invalidating Darwins theory of evolution: evidence from genetics, origins science, biochemistry, paleontology, taxonomy and molecular biology. Finally, he examines fallacies of certain evidences commonly said to support Darwins theory: Ernst Haeckels embryo drawings, vestigial organs, salt percentages in blood and seawater, babies born with monkey tails, peppered moths, microevolution, and similarity as a proof of common descent. Despite the scientific nature of the material, Perloff keeps it light and short, and most readers should find The Case Against Darwin an easy read. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
