

## National Geographic" Atlas of the Middle East: An Essential Reference for a Better Understanding of the World's Most Complex Region (2nd Revised edition)

---

By National Geographic

National Geographic Society. Paperback. Book Condition: new. BRAND NEW, "National Geographic" Atlas of the Middle East: An Essential Reference for a Better Understanding of the World's Most Complex Region (2nd Revised edition), National Geographic, "National Geographic's Atlas of the Middle East, Second Edition" addresses important geographical issues by first establishing its presentation of the region today, with core political and physical maps, including 20 individual country maps, each with an accompanying flag and profile section. Enhancing this country section, Afghanistan, Pakistan, and Sudan have been added to the Second Edition. The inclusion of these three newsworthy countries reflects the broader definition of the Middle East accepted by scholars to describe the area in a cultural sense - south central and southwest Asia and northeast Africa - that are predominantly Islamic. The city section is revamped and new cities are added: Istanbul (mega city with a population of over 10 million) and Dubai, U.A.E., which is quickly becoming the most modern city in the region and attracting thousands of tourists. Then a series of regional thematic maps follow. Included among these topics are: Population, Religion, Ethnic/Linguistic Groups, Oil (fields, ports, reserves, pipelines, consumers, export routes, etc.) , Water, Agriculture and Industry, Wealth,...

### Reviews

*Very beneficial to all of class of people. I am quite late in start reading this one, but better then never. You may like just how the writer create this publication.*
