*A fresh e book with an all new viewpoint. It is really simplistic but unexpected situations in the 50 % from the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

I m a registered nurse, a pharmaceutical scientist, a founding member of the Detroit Police Department s barely-legal Shadow Squad, and a walking case study in 21st century man problems. I like things calm and orderly. I have a soft spot for people, so I spend my days developing a formula to help cancer patients escape their suffering. My research has caught the eye of some dangerous members of the self-medicating community, and now I have to make sure my plans aren t polluted by unsavory people who d rather destroy me, my friends, and my city. By night I have a part-time partner and full-time guardian, Detective Jonas Rafe, fellow member of the Shadow Squad. He is as volatile and unpredictable as anything I ve ever dealt with in a lab. I m smart enough to protect myself when handling chemicals, but I m still learning when it comes to him. He s sweet when his mouth is closed, but there s no way to prepare for when it opens. In time, his actions speak louder than his words, and though I vowed to never put my trust in another cop, he makes me want to take chances. He s the law, and he wants to protect me. They all do. But I m neither as fragile nor as pure as he wants me to be. I m a nerd with a gun fetish. I m tired of observing, and it s time for me to be in on the action. When he finds out what I ve been up to in Detroit after dark, our relationship is tested, loyalties are divided,...
