

## Complex network of basic theory

Filesize: 7.65 MB

### ***Reviews***

*It is one of my personal favorite ebooks. It is probably the most awesome publication I have read through. You won't really feel monotony at anytime of the time (that's what catalogs are for regarding in the event you check with me).*

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pages Number: 340 Language: Chinese. Publisher: Science Press. Book is a primer of the basic theory of complex networks. The book came out a wide range of comprehensive, innovative, reflecting the findings of a recent study of more than a decade of complex network theory dynamics and the author's part. The book is divided into eight chapters. The first chapter introduces the complex network-related knowledge. The second chapter details the network topology and static characteristics. Chapter III starting from the different types of mechanism model, respectively, the regular networks, random networks, small-world networks, scale-free network-level networks, deterministic network and self-similar network. The fourth chapter describes the spread of epidemics on complex networks, public opinion, communication and dissemination of knowledge and data packet delivery and congestion control mechanism. The fifth chapter describes the chaos synchronization of complex networks. Chapter 6 describes the search algorithms and strategies in complex networks, the social networks of distributed search in P2P networks WWW network search. The seventh chapter is devoted to the complex network node in mining and community mining principles and algorithms. Chapter VIII describes the complex network in the evolutionary game theory, survivability analysis, and survivability optimization and repair strategies. Easy to digest and understand the book content, attached to the end of each chapter exercises, a large number of references given in the end of the book. The book can be used as professional undergraduate and graduate institutions of higher learning computer science and technology, communications engineering, applied mathematics, biological sciences, applied physics, sociology textbooks are also available in the field of complexity science and network science teaching, research and reference. Four Satisfaction guaranteed, or money back.
