## SOCIALISM AND INVENTIONS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Socialism and Inventions Public Ownership of public services has proved always and everywhere a public benefit. The transfer of the telegraphs from private to public control by Gladstone in 1868 resulted in an immediate reduction of charges, an increase of wages, and a doubling of the traffic within two years. The telephone service in countries like France, Germany, Sweden, and Switzerland, where it is controlled by the State, is cheaper and more efficient than in countries like England, where it remains in private hands. State railways on the Continent have combined cheapness, comfort, and speed with improved conditions of labour. The advantages of public ownership in the case of water, gas, electricity, and tramway communications are no longer open to argument. In regard to public services at any rate the principle of common ownership is practically admitted by everybody except the representatives of the Trusts. Now, it becomes necessary for us who have set the stone rolling, closely to watch its progress. For it is certain that any State purchase effected by capitalistic Governments in the actual temper of the mass of the people will tend to the advantage of the sellers and to the transformation rather than the destruction of Capitalism.
